

ActiveSend

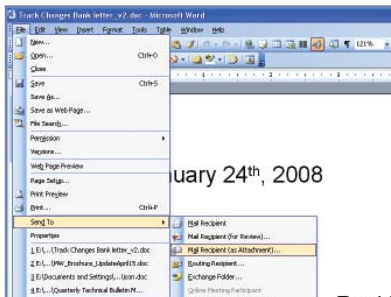

Powerful Desktop Integration for Outlook Web Access

Outlook Web Access Integration with Microsoft Office

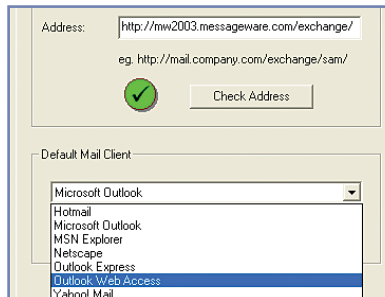

ActiveSend makes it easier to send email using OWA from within Microsoft Office or other desktop applications. ActiveSend enables the File/SendTo command from within the application, as well as "Mail to" functionality on web pages, using OWA as the default email. With ActiveSend, OWA users no longer have to save documents to their local computer and attach files to an email, saving time and effort.

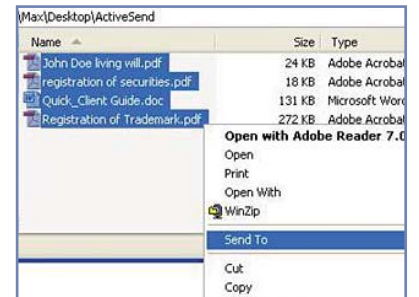

Features

Send from Microsoft Office in one click using OWA

Easily toggle between OWA, Outlook and Outlook Express

Quickly email multiple files in a single click using OWA as the default email

Enable the MailTo functionality on web pages, with OWA as the default

Save username and password securely to quickly email files

About Messageware

Founded in 1993 and headquartered in Toronto, Canada, Messageware develops and markets solutions that enhance and secure Outlook Web Access. A trusted Microsoft Gold Certified Partner and a Global Exchange ISV for 15 years, our applications give companies of all sizes the ability to enhance, secure, and customize OWA. Messageware solutions give organization a greater return on their Microsoft Exchange investment through increased employee productivity and reduced support and IT administration costs. Messageware products are used by over 2,500 enterprises and four million users worldwide, from Fortune 500 companies to small businesses, in every major industry including banking, education, financial services, government, healthcare and legal services.

"ActiveSend integrates OWA with Microsoft Office so users can easily send attachments from within applications. It can't get much better than that can it?"
