

Plus Pack

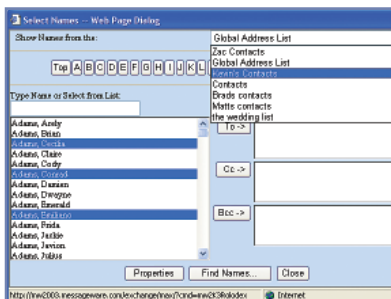

Enhanced Productivity with Outlook-like Functionality

Turn OWA into Microsoft Outlook

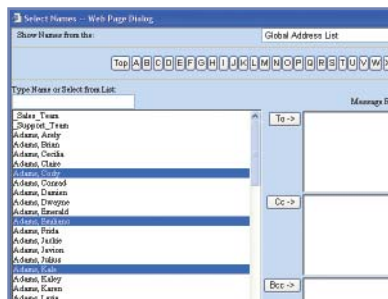

OWA is the world's most popular webmail solution, but it doesn't provide an identical user experience for those accustomed to Outlook. Making OWA look and operate more like desktop Outlook will improve user productivity and reduce calls to the support desk. Plus Pack seamlessly integrates key features such as Outlook-like addressing, global address list contacts, roaming personal dictionaries, and much more, transforming OWA into an intuitive, Outlook-like web mail application.

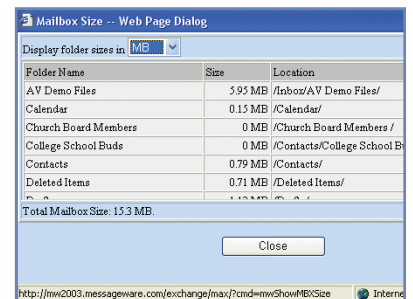

Features

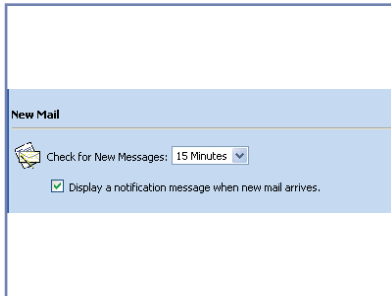

Give users the ability to access contacts from the global address list including personal contacts

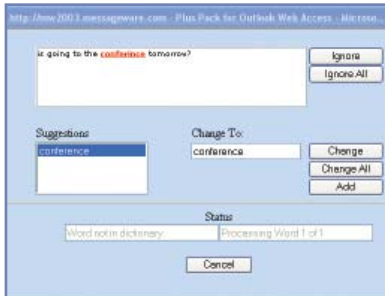

Fast-key address searching enables users to find names in seconds. Use the Ctrl key to select multiple recipients and address an email quickly

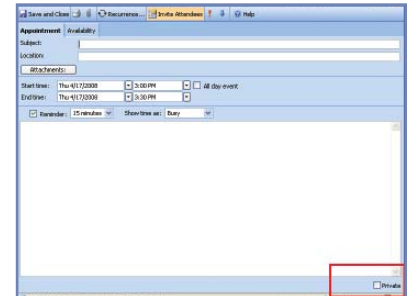

Users can view both the total size of the mailbox along with the sizes of each individual folder

PlusPack will automatically refresh the user's Inbox and notify the user that new mail is available

Users can add words to personal dictionaries that roam with them – no more spell check flags on uncommon names

Contacts and appointments can be marked as private

About Messageware

Founded in 1993 and headquartered in Toronto, Canada, Messageware develops and markets solutions that enhance and secure Outlook Web Access. A trusted Microsoft Gold Certified Partner and a Global Exchange ISV for 15 years, our applications give companies of all sizes the ability to enhance, secure, and customize OWA. Messageware solutions give organization a greater return on their Microsoft Exchange investment through increased employee productivity and reduced support and IT administration costs. Messageware products are used by over 2,500 enterprises and four million users worldwide, from Fortune 500 companies to small businesses, in every major industry including banking, education, financial services, government, healthcare and legal services.

"With Plus Pack we can be sure that email is professional, accurate, and efficient. We think it's a very worthwhile investment."

Canadian Pacific Railway

"Within just a month of implementing Messageware Plus Pack, email usage skyrocketed to 95% of users utilizing it on a regular basis."
