View Multiple Calendars Side-By-Side

CalendarShare 2007 – View Multiple Calendars Side by Side

CalendarShare gives OWA 2007 users the ability to view multiple calendars side by side, making it easier to schedule meetings or manage resources. CalendarShare adds delegate management to Outlook Web Access, giving users the ability set to allow others to view, edit or manage calendars on their behalf. CalendarShare also follows delegate permissions that users set in Outlook to allow others to view, edit or manage calendars on their behalf.

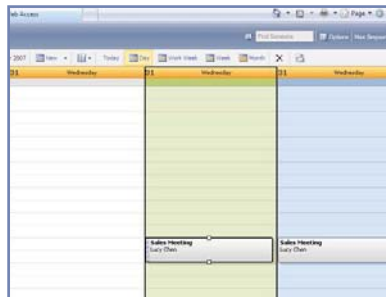

Features

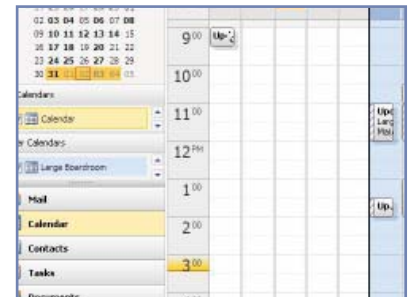

View multiple calendars side-by-side

Easily schedule meetings from anywhere by viewing shared calendars side by side

Delegate Access

Give users the ability to set and manage delegates and permissions to calendars within Outlook Web Access

Convenient resource booking

With CalendarShare, OWA users can book resources such as conference rooms and equipment with convenient side-by-side viewing in day, week or month format.
